ISO 9001:2015 SAATCA Registered Lead Auditor (5 days)

Lead Auditor status is quality management's most prestigious title and recognizes the excellence of the individual. A Lead Auditor has proved to be a proficient auditor, with the requisite skill and expertise to perform internal, supplier, third-party and certification audits. This degree of competence is extremely valuable for assurance purposes, adding creditability to organisations who self-regulate. Becoming a Lead Auditor demonstrates unmatched understanding and knowledge of quality management systems, as well as broader business improvement competence.

Risk ZA has chosen to develop its ISO 9001:2015 Lead Auditor training course in line with the requirements of the Southern African Auditor Training Association (SAATCA), with whom it holds registration no. 001. This course is recognised by and registered with SAATCA and, because SAATCA is SANAS accredited, is internationally recognized under the MOU of the IAF. The course is based around the requirements of ISO 19011 and ISO 17021. This means that delegates gain the level of knowledge and skill required by certification body auditors.
